

JOHN ZIDZIUNAS

DIRECTOR OF ENVIRONMENTAL RISK & LOSS CONTROL

As Director of Environmental Risk & Loss Control at Alamo Insurance Group, Inc., John Zidziunas leads the Company's "Green Team" where he is responsible for managing property specific clean-up and remediation programs pertaining to "Brown-field Properties."

Assisting individuals and companies throughout the state of New Jersey, the Green Team provides the incentive and means to turn dangerous eyesores into ratable, revenue-generating pieces of real estate, creating well-paying jobs and an invaluable amount of neighborhood goodwill in the process.

He is licensed and certified by the New Jersey Department of Community Affairs. John Facilitates Alamo clients in obtaining up to date knowledge in any changes in environmental laws keeping them informed in order to maximize effectiveness, productivity and expediency which can allow a significant economic savings to real estate clients.

Previously, John served as owner of Brownfield Property Development, where he worked in construction management, sales and marketing. He managed the remediation of several Brownfield properties, obtaining No Further Action (NFA) letters from the NJDEP. He also joint ventured in the clean-up and successful marketing of several properties he helped to make commercially viable.

He earned his bachelor's degree in Science from St. Peter's College in Jersey City and was formerly a teacher in the Newark Public School system.

John resides in Springfield, New Jersey with his fiancé and enjoys spending time with his two sons and three grandchildren.
