

Dawn C Pascale

Assistant to President & CEO

A results-driven professional with a proven track record of managing multiple responsibilities and delivering impactful outcomes. A licensed insurance producer, accomplished entrepreneur, and senior HRIS expert, adept at overseeing end-to-end business operations.

Core competencies include communications, troubleshooting, time management, problem solving, attention to detail, confidentiality, adaptability, prioritization, and customer relations.

Biography:

Dawn's extensive background spans from her corporate financial services Human Resources experience to owning and growing her own vegan & gluten-free bakery business to becoming a NJ licensed Property and Casualty insurance producer.

She is widely recognized for her ability to foster collaboration with senior leadership teams, business stakeholders, and both internal and external service providers to align strategic objectives and drive organizational success. Dawn's expertise encompasses comprehensive strategic planning, business transformation and change management, HRIS design and systems implementation, end-to-end project management, process optimization, and data-driven decision-making. She possesses a deep understanding of data management, business analysis and integration, performance reporting and analytics, data security, and the development and delivery of training programs and on-going operational support.

With a strong foundation in cross-functional leadership, she excels at identifying opportunities for improvement, streamlining processes, and implementing scalable solutions that drive efficiency, productivity, and profitability. She ensures timely and effective communication between Alamo leadership and their valued customer base, fostering transparency and trust. In addition to these strengths, she contributes to delivering expert consultation services, a highly valued amenity offered by Alamo to its esteemed clients.

Dawn holds a Bachelor of Science in Finance from St. John's University.
